We cannot too earnestly commend the ob jects of this Society to our fellow citizens .-Membership in it is open to all the ladies of our city who feel sufficient interest in its design to cause their names to be appended to its consti-

The purpose of the Society is not perhaps clearly understood by all. It is not to furnish clothing and subsistence to the soldiers in gen eral. These things are done through the Quartermaster and Commissary Departments. But the great and benevolent object at which the Soldiers' Aid Society aims, is simply, in connection with the Sanitary Commission and under its supervision, to furnish supplies for the hospitals, which the Government either wholly neglects to furnish, or furnishes in a niggardly and scanty way-in one word, to contribute to the comfort, encouragement and recovery of the sick and wounded soldiers.

Having stated the object of the Society, we feel that it would be superfluous to add one word in commending it to the sympathy of the ladies or to the liberality of the gentlemen of our city. To tell what it is for is to make the best appeal in its favor to the heart of every man, woman and child.

There can scarcely be a doubt of the passage

A difficulty exists in the way of their discharge from the fact that it cannot yet be ascertained whether they are all contra-bands, and loyal citizens have a right to claim a surrender of their property.

Hog Markets CINCINNATI.

CINCINNATI.

Light receipts of Hogs fairly offset the moderating condition of the weather, and tend to sustain the market at \$3.25 to \$3.40, with rather more spirit than packers are otherwise disposed to encourage. Betlers manage the mriket with a good deal of skill, and upon a slight manifestation of weakness repress nearly all manifestations of a desire to sell. As the market is now working, the farmers doubtless feel that they may as well await the chances of a future course of the trade until as late as possible, particularly if their hogs continue to thrive and make a good appropriation of the corn that is being fed to them.

Commercial. The receipts of hogs to day amounted to 10,543, and the market was dull and about 5c lower, with sales at \$2 00 mc. 72% for fair to extra heavy. In consequence of the dull state of the provision market, packers bought sparingly, and shippers also held off, because of the delays in shipping through and the extreme cold weather. Beef cattle were in fair demand and steady at \$1 50 mg. 160—the latter price for a lot of fine steers. PITTSBURGH.

The stock of hogs now in the pens at the Alleghany Drove Yards is unpresedentedly large, being variously estimated at from 25,000 to 30,000 head. As yet, however, but little has been done by any of our packers, as the prevailing prices de not appear to meet their views. At present, they are unwilling to pay more than \$2,500, 200, per hundred the gross, while sellers demand \$3,10,035 20, gross, which is equal to \$3,6304 00, net. The weather for the past few days has teen all that could possibly be desired for packing, and if buyers and sellers can only come to terms, a brisk time in this department of trade may be looked for soon.

in getting the stock off of the cars and boats as fast as it arrives.

When Mr. Allerton built his extensive hog markes, no one thought it possible, or at least not probable that devers would ever lack the most ample accommodations, for no one ever anticipated such a wonderful supply as we have lately witnessed.
